

## Center for FaithJustice Spring 2022 COVID-19 Protocol

We are grateful to have had a successful year thus far on all of our WorX programs! Adherence to COVID guidelines has enabled us to safely host hundreds of participants already this past summer and spring with zero Covid transmissions.

We remain mindful, however, of the frequent changes made to national and state COVID mandates and guidelines pertaining to youth and camp programs. To that effect, we have revised our own COVID protocols to align with those updated standards and ensure that our participants can have the most meaningful and safe experience possible. The safety of our participants, leaders, and service partners has been and will remain our top priority.

Based on updates made to CDC and NJ Department of Health Guidelines for Summer Youth Camps, CFJ will follow these safety measures for all planned programs during the spring 2022:

### Face-Mask Policy:

- Masks will be required for all participants while working at service sites that require participants to be indoors.
  - Neck gaiters do not count as masks.
- During afternoon and evening activities at the host site, unvaccinated participants are strongly encouraged to wear a mask since they may be indoors and not able to properly physically distance themselves from others.
  - Vaccinated participants will not be required to wear a mask during afternoon and evening activities.
- In outdoor settings, participants are not required to wear a mask regardless of vaccination status, provided there is ample space for social distancing.

### Pre-Program Mandatory Documents:

- All participants on overnight programs will be required to show proof of vaccination, a negative COVID test within 72 hours before arriving on the program, or a doctor's note clearing them from a previous COVID infection within the past 90 days

### Other protocols will remain in place:

- Consistent hand washing and sanitizing of shared spaces
- Emphasizing outdoor time, weather permitting, for large group activities, eating, and community time
- If while on our program, a student has a fever or another symptom of COVID-19, they will be asked to quarantine immediately in a separate and designated space. The student will then be asked to answer a series of questions to identify if the student is feeling 2 or more symptoms of COVID-19. The parent will be notified immediately.
- If sick, on our program, we will ask that parents pick up the child and have them tested as soon as possible. In this way, we will know whether we need to quarantine the other members of their group.

As always, we will ask for parent cooperation in this process. If your child is sick, experiencing COVID symptoms, or has come in contact with someone who has COVID prior to a scheduled program, please refrain from sending them. We will work with you to find an alternative for them to participate. It is in the best interest of all involved that we protect ourselves and one another. Thank you!
